The *new system* to build an ecommerce business not dependent on Amazon (or anyone else) is here...

Over the past 44 months I've built an ecommerce brand from nothing to \$30 million per year in sales...but there's one thing *highly unusual* about it...

90% of our sales are on our own website, *not* Amazon.

Why is this so strange? Because I've been teaching people how to build businesses focused *exclusively* on Amazon since 2012. Our students have produced an estimated \$9 billion in sales with the system we developed for that ecommerce model.

But it's not 2012 anymore...or 2014...or even 2018...

Today, if you're going to start an ecommerce brand from scratch to create financial freedom, I believe there's a *much* better way...

You can build an ecommerce brand with products that can be sold *anywhere*, including on your own website, on Amazon, on other big platforms, and even in retail stores. It doesn't require any extra work or time, just a different focus.

Now we're ready to help you build your own business with this *new system*. There's only one problem...We only have limited results to show you so far...

My proof is in the video above. Both Mike and Devin, my partners in this program, have sold over \$100K *outside of Amazon* using the same principles in this program. And, I can show you lots of students I've taught who have sold millions on multiple channels.

What I can't show you is someone who has been through this exact program from scratch. So it's a bit of a leap of faith (though not too much considering the results above).

Therefore, we're launching a Beta Program to gather proof of this system's success for *anyone* who implements it. **As a Beta Program member, you save 67% on the eventual full price of the program - and you get way more personal attention from us, three multi-million dollar ecommerce entrepreneurs.**

In exchange for this huge value, all we ask is you (1) implement everything we show you as intensely as possible over the next six months and (2) share your results with us. That's it.

We're excited to help you build a massively successful ecommerce business with this *new* system. **Click the button below to join the Beta Program now before this opportunity is gone!**
