Don't Take Our Word for It

Seth's training course will change people's lives like it has changed mine.

After following Seth's blog for a year, I took the plunge and followed his guidance. Within a couple months, I had bought and sold a 4 acre property (from the comfort of my own home) for a 500% profit. THIS IS ADDICTING.

The no hype, no BS approach to teaching all the nitty gritty of land flipping makes learning this business enjoyable and fairly easy. I would definitely recommend this to anyone trying to add extra income and financial security to their life. My only regret is that I didn't take action sooner!

My wife and I got into land investing and studied all the content for about a year.

We have learned so much from Seth. With very little money to start with, we sent our first direct mail campaign which resulted in two deals. We took a leap of faith and purchased the two properties after completing some due diligence. We sold one property almost immediately for a \$7,600 profit.

Now we have a business that is generating \$3,000 per month on average. We have completed 7 purchases, 4 sales, and 2 pending buys.

I would definitely recommend that anyone who is looking into land investing, GETS HELP. Seth's course is very detailed and shows you how to do everything from start to finish.

In just six months, I have done 8 deals and made \$180,000 in profit.

I also have three other parcels under contract, with buyers interested in all three and waiting to close. These deals look like another \$80,000 - \$100,000 profit on all three combined.

The four person staff at my title company are amazed when they see how much I am making on each deal, but I've sworn them to secrecy!

What is so cool about this material is that once you learn the concepts and methods, they are flexible enough to adapt to fit one's own needs or approach.
