Why Am I Offering This To You?

To My Students,

I've literally never done this before. But, I know that 2021 has been a tough year for the world. I know that many of my students NEED 2022 to start off with a bang. I truly believe how you start off in the first quarter of the year will define how your business performs the rest of the year.

If you start out 2022 without a REAL GAME PLAN ... a real actionable plan ... then you'll probably get stuck and confused and find yourself scrambling the entire year to get going. Haven't you heard the quote "The definition of insanity is doing the same thing over and over again, expecting a different result."??

THE PROBLEM: I've seen it time and time again in the group. People commenting that it has taken them months to get their store off the ground, launch ads, etc. I look at the feedback, I study it and

I don't want that to be you in 2022.

MY SOLUTION: I want you to have a plan, a FAST ACTION PLAN, so you know exactly what to do from A-Z and how to do it QUICKLY by cloning my process (even if you're a complete beginner, that means you probably need this more than anyone else).

I have NEVER done a "Holiday Deal" before. It's simply because I think it's disrespectful to students that invested full price in our trainings to "discount them 50%". I have too much RESPECT for my students to do something like that.

I get it, every year digital marketers make a small fortune by doing a big "black friday sale" where they practically give away their entire arsenal. But, again, I refuse to do something that I know in my heart is unfair to everyone else that invested throughout the year. And besides, my courses are too valuable to do something like that anyways. Honestly, just b/c it's BF does that really mean my courses are worth less? ... NO.

BUT ... 2021 is different. It's different b/c you need MORE THAN EVER to make a change for 2022.

So I wanted to do something for you. Something that I've never done before. Without disrespecting those of you who have invested in my trainings at full price already. But still help EVERYONE.

I thought about this, long and hard, I read the feedback in our pvt. Facebook Group.

Within a few minutes I knew the OBVIOUS answer to my question....

You need a REAL ACTION PLAN to generate revenue in 2022 and PREVENT GETTING STUCK.

The first quarter of the year is actually the most profitable quarter of the year (I know that sounds crazy).

It's b/c traffic is cheaper and people are looking for "After-Holiday Clearance Sales" it's like a second wave of Black Friday and Cyber Monday sales right after Christmas.

Why? People have money ... they got giftcards and cash for Christmas presents and they're ready to spend!

No matter which one of my courses / softwares you have. This action plan I am going to teach you will show you everything you need to know to take advantage of that ... without any question ... no bumps ... A-Z!

This 2022 E-Com Profit Blitz plan is designed to give you a real action plan that anyone can duplicate to take advantage of the massive spike in CHEAP buyer traffic that is going to hit on January 1st, 2021.

Again, I've never done anything like this before. And you'll find that I am going to teach you a plan that I haven't taught in any of my courses so far. ... B/c this is something NEW that I am implementing for 2022.

Instead of filming a bunch of tutorials that I know many of you will never watch. I wanted to do a LIVE bootcamp with my TOP MEDIA Buyer ... just for you. So I can answer your questions, get you excited, and tailor the training to YOUR NEEDS so I'm positive you understand how to quickly and easily implement this e-com profit blitz 2021 blueprint.

You've really got to determine IS 2022 GOING TO BE YOUR YEAR?

That's the real question because the answer to that question should determine whether or not you decide to enroll in this one time only opportunity.

Usually I would charge \$997-\$1,500 for a bootcamp like this. But, since it's something I have not released before, I can give you the "holiday discount" of just one single investment of \$397.

Wouldn't you agree sitting down with me for over 2 hours walking you from A-Z on how to quickly find products, launch facebook ads, and then SCALE them is worth far more? (That is why this is a BF deal).

As will see when you click the button below I have discounted this to an absurdly low enrollment cost because I want every single student who lands on this page to take advantage of this opportunity.

I am closing this down Saturday Dec 18th at 11:59pm PST

... and I will NEVER offer this bootcamp again. So, not only are you getting a ridiculous discount - but, you will be the ONLY one to ever get access to this information in this format. I'm never releasing this again and I'm not going to do the typical "guru" sell the recordings for a discount. Nope, not gonna happen. Nobody will ever get access to the replays except those of you who take advantage of this right now.

I appreciate you taking the time to read this short letter from me and I look forward to helping you make 2022 an amazing year. I truly believe we can do it if we work together!

- Adrian

DISCLAIMER: The sales figures stated above are my personal sales figures. Please understand my results are not typical, I'm not implying you'll duplicate them (or do anything for that matter). I have the benefit of practicing direct response marketing, e-commerce and advertising for 10 years, and have an established following as a result. The average person who buys any "how to" information gets little to no results. I'm using these references for example purposes only. Your results will vary and depend on many factors... including but not limited to your background, experience, and work ethic. All business entails risk as well as massive and consistent effort and action. If you're not willing to accept that, please DO NOT GET THIS BOOK.

At the end of the training, I'll be making an offer for people who want to work more closely with me and my team to get help with implementing what they learn on the training and more. This is completely optional. The training lasts about 90 minutes and if you don't want to work more closely with me, you can leave without buying anything. The training will be holding NOTHING back and you'll be able to implement what you learn right away on your own.
