"Is Internet Launch Secrets Worth It?"

What You're Gonna Get...

5-Module, Lucrative Launch Masterclass

Steve's 5, 6, and 7 Figure Launch Formula - the same proprietary formula he uses AFTER his product is finished and ready to sell. It's responsible for literally, almost every dollar he's made...

(\$2,997 Value)

4-Module, Create Your Core Offer Course

Steve went through 34 product failures over 5 years, then immediately into 46 successes in a row during the next 3 years. What 'clicked'? THAT is what 'Create Your Core Offer' course will teach you.

- Includes In-Home Product Creation Workshop Kit

(\$1,997 Value)

Money-Message Script Templates

This is ALL the copywriting Steve knows how to do. To be clear, he is NOT a pro-copywriter, but instead has focused on the 20% that gets 80% of the results. After you use these templates, you can easily finish your copy yourself, or hand it to a pro with ease.

(\$2,997 Value)

\$100k Capitalist Success Path

Many have agreed that \$100k is much harder than \$1m. After your product is proven... then what? This path will not only guide you through the course, but you'll also see what these skills allow you to do next. Mhmm, you'll be lethal to the market with these skills.

* One Of The Most Important Things I Could Give You

(\$697 Value)

CMO's Guide To Evergreen Cash

When should you automate your funnels? This keeps a lot of startups from becoming an actual business (that you're not glued to so it won't die). Steve is not a 'biz-systems' guy, and that's not what this is, but this POWERFUL piece will guide your main revenue source through the tender transition between 'launch' and 'evergreen'.

(\$497 Value)

Private Launch & Brainstorm Community

Learn, ask, study, and even find future venture partners in your private 'Internet Launch Secrets' community. You're surrounded by fellow Capitalist Pigs in campaign-mode. Openly promoting to the other group members isn't allowed, but finding launch and JV partners is highly encouraged in this members-only group.
