# THE GOVERNMENT IS HIDING BILLIONS IN JAX FORECLOSURE MONEY

## AND ONE LETTER LETS YOU TAP INTO THIS HIDDEN GOLDMINE USING JUST A LAPTOP

In the US alone 3000 homes go into foreclosure each day...

Let me say that again. 3000 homes... Every. Single. Day.

That means 90,000 people lose their homes each and every month. And for most of us, this isn't really news... The world we live in has become a nasty place.

BUT... we can help the people who have lost their homes (and make \$10,000 to \$40,000 for EACH person we help). See, when people lose their homes in 99.9% of the cases it is not because they stopped paying their loan or

their taxes on Day 1. In fact, people pay their mortgages for years (even decades)... then life happens... crisis, pandemic, war... you name it. Often the breadwinner loses their job and 3 months later the government throws them out on the

**street!** And here is where **YOU** come in... ONE SECRET Turns A Foreclosure Into A HUGE PAY-DAY

### Here's a simple example: John Doe has a \$250,000

home. Financial troubles occur and John can't pay the taxes, so he ends up owing \$10,000 to the government. Right after, the government shows up and throws him out of his home... putting the home into foreclosure.

A few weeks later, the home is sold for \$200,000. What happens next is... the government takes the \$10,000 John owes... but what happens to the **\$190,000 that is leftover?** 

Who gets that money? Money Leftover Foreclosures Is The Government's GOLD

### Well that "leftover money"... that's the GOLD MINE the government keeps hidden from the public!

**Let's do the math:** Multiply \$190,000 x 90,000 homes (from just this month) - that's 17,100,000,000 (17) BILLION DOLLARS) EVERY MONTH the government keeps that money for itself (but the owner forgets to claim that money back)! And this has been happening for OVER A 100+ YEARS!

What no one knows is that almost 100% of that \$17 billion dollars is waiting for someone to simply pick up the phone and take it back! Why does this happen? Let me explain... most people when they lose their home - move and don't update their address with a *very specific* government branch. Thus *"legally"* the government cannot contact them

and send the money that is THEIRS TO KEEP! THE DIRTY SECRET: The Government NEVER Contacts Anyone

To Collect That Money (So They Can Keep It For Themselves) You read that right! The DIRTY-DIRTY SECRET is --- the government <u>DOES NOT</u> call anyone... even when they do update their address and their phone numbers].

instantly. Why? Because no one ever told them they could (and how to). So they think that when the house is lost - the money is lost too! And that's what we've been doing for years! We are secretly getting rich while everyone else is struggling

- others are building websites, doing social media, affiliate marketing, drop-shipping, etc. All we do is: 1) Find someone who lost their home (we use an online database to make it quick)...

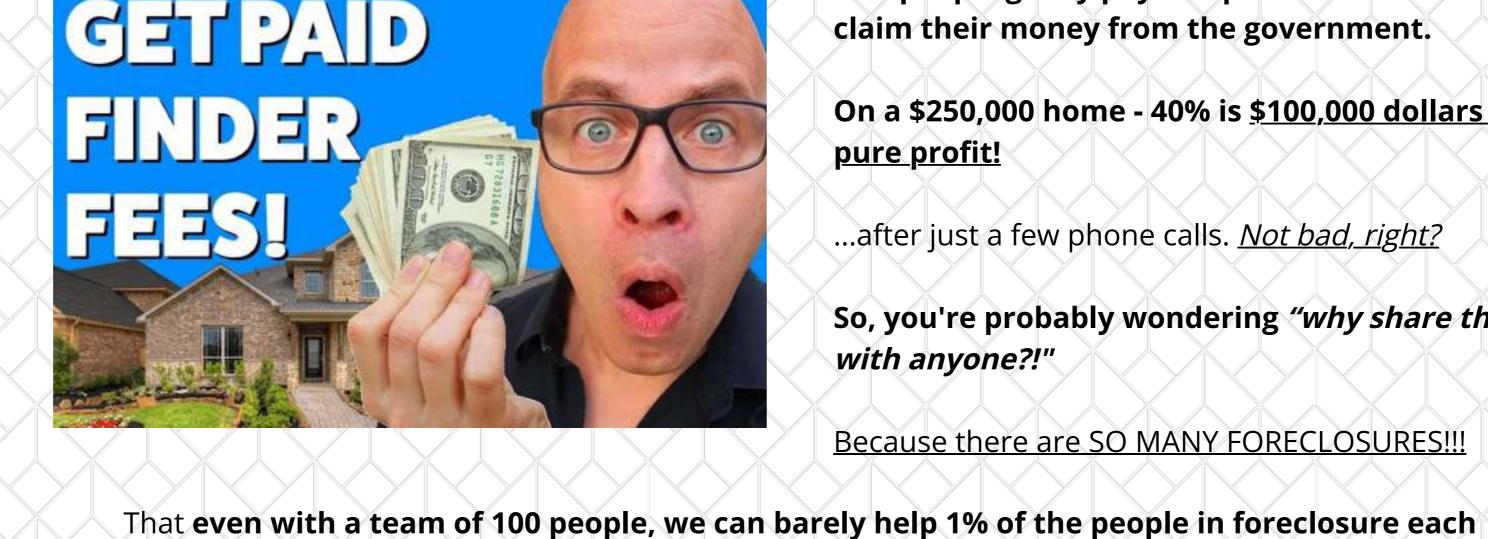

Therefore, 9 out of 10 people that lose their home have no idea that they can claim that money

2) Call the government office and find out how much money is in the previous owner's name...

3) Sign a contract... and we transfer the money (for a 40% finder's fee)!

Simple, right?

## Imagine How Happy A Person Is - Receiving ALL The Money They Lost In Their Foreclosure... A "FINDER'S FEE" Is An Easy And people gladly pay us up to 40% when we RE-

claim their money from the government. On a \$250,000 home - 40% is \$100,000 dollars in

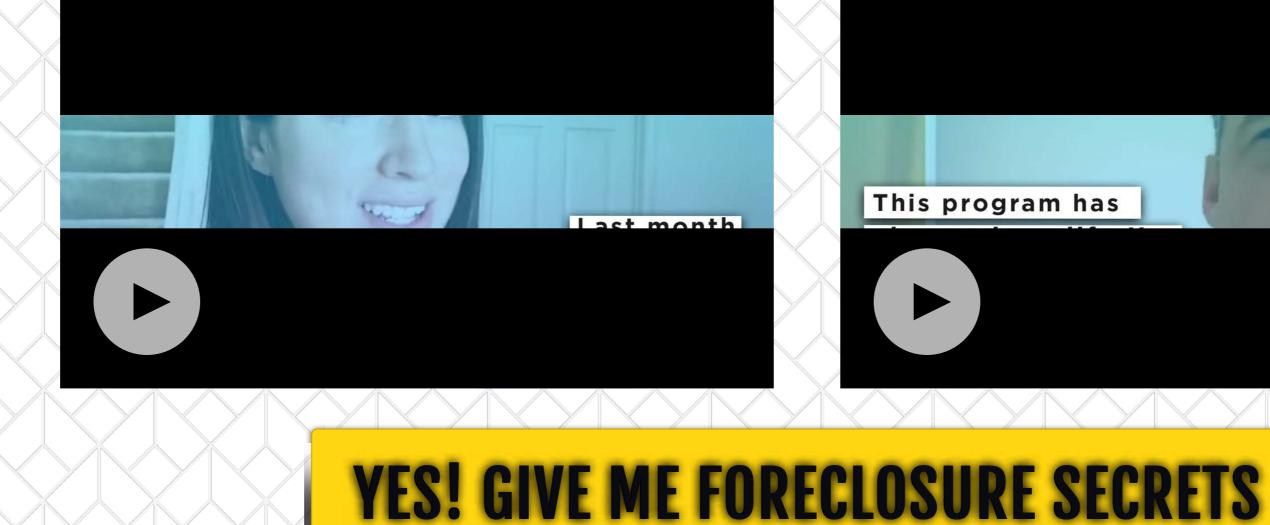

<u>pure profit!</u> ...after just a few phone calls. *Not bad, right?* 

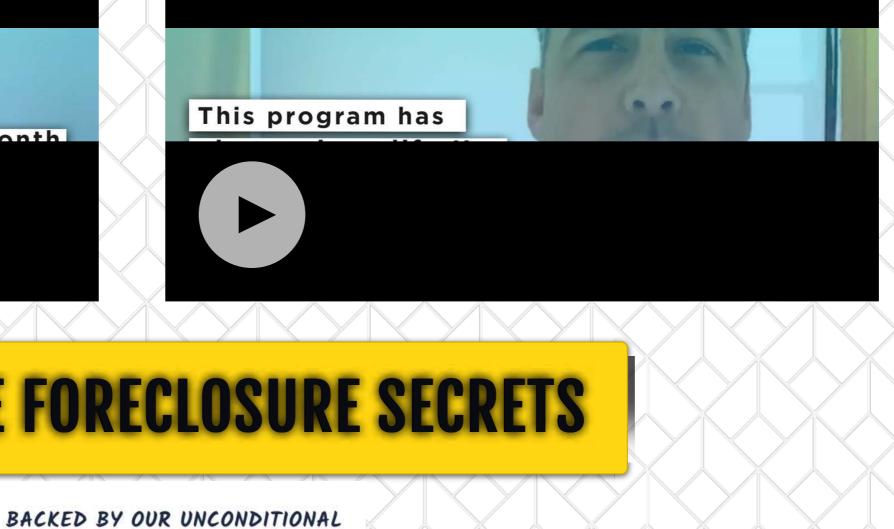

So, you're probably wondering "why share this with anyone?!"
